Meeting title: Internship- Day 10

Date + Time: 7/5/24 11:30 am

Location: Jain University, FET
102

Attendees: Host: Mr Akash Das Participants: AI&DE Batch	Agenda
Absentees:	1.Familiarizing with MySQL group by, built-in and aggregate functions. 2.Understanding the working of MySQL joins.
Session Objectives	Key takeaways
1.Interpret the results of queries involving group by, built-in functions, and aggregate functions. 2.Explain why joins are necessary for working with data across multiple tables.	1.Aggregate functions like SUM, AVG, COUNT, MAX, and MIN provide valuable summaries of grouped data. 2.This allowed the intern's to analyze data based on specific groups, leading to a more concise and informative view of your data.
